

# Solar Energy meets Fuel Cell

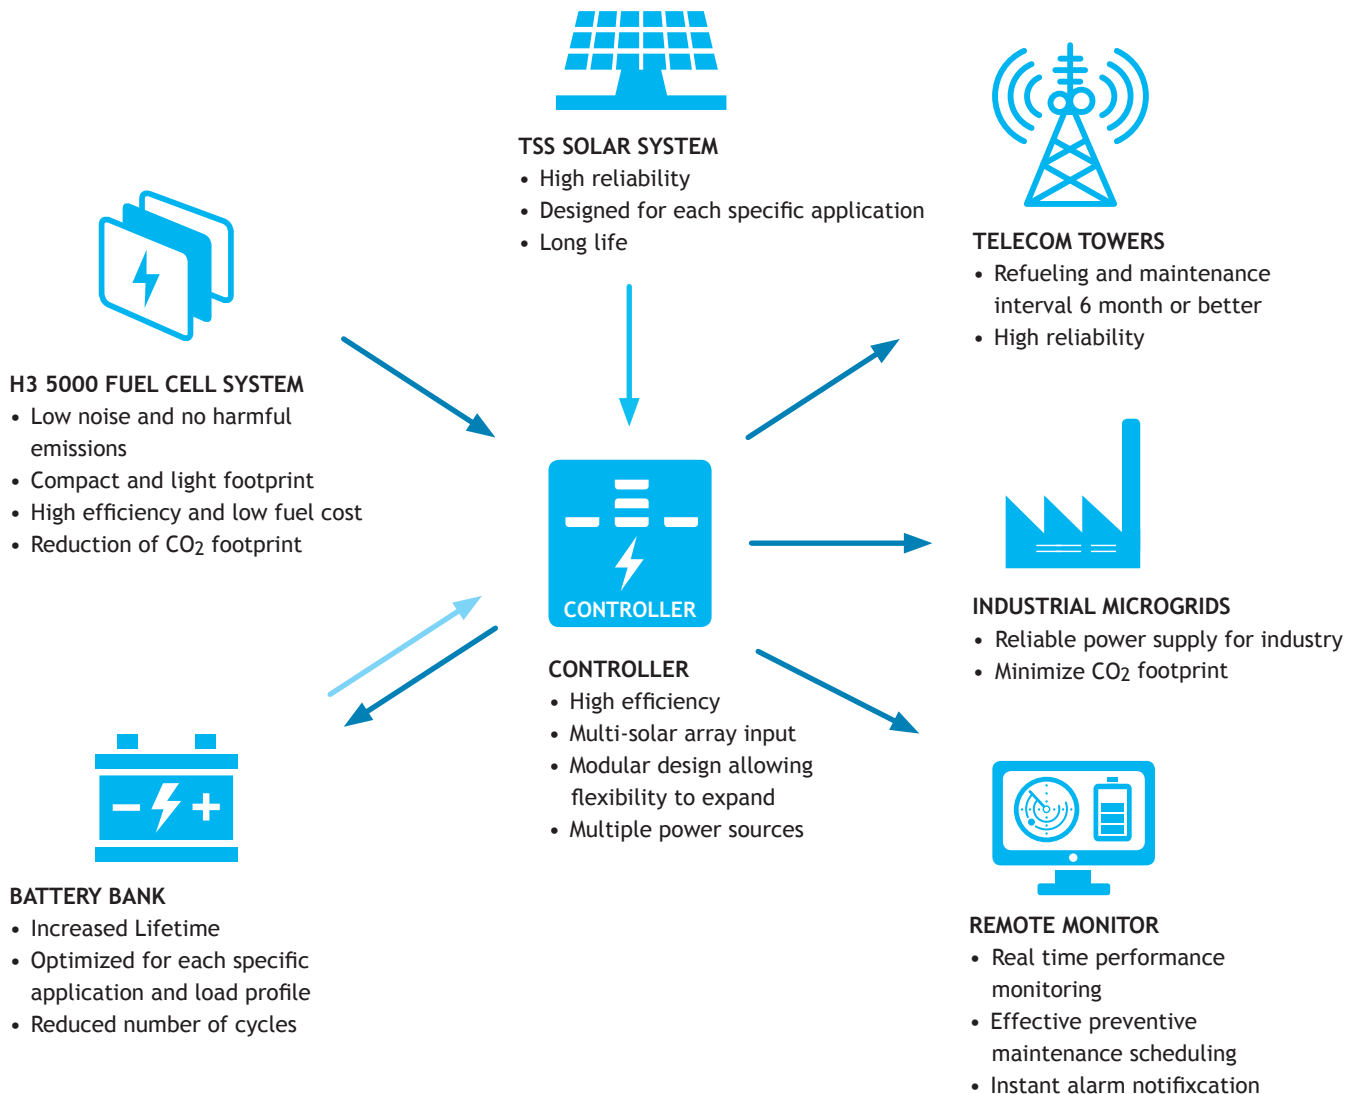

## The Ultimate Green Solution

- Energy Supply 24/7
- Low noise
- Theft proof
- CO<sub>2</sub> emission free
- Biodegradable fuel
- Modular design
- Minimal maintenance
- Integration in any existing site

# How does it work?

## Advent Technologies Holdings, Inc:

Advent Technologies Holdings, Inc. is a U.S. corporation that develops, manufactures, and assembles complete fuel cell systems, and the critical components for fuel cells in the renewable energy sector. Advent is headquartered in Boston, Massachusetts, with offices in California, Greece, Denmark, Germany, India and the Philippines. With +150 patents issued, licensed, or pending for its fuel cell technology, Advent holds the IP for next-generation HT-PEM that enable various fuels to function at high temperatures under extreme conditions - offering a flexible "Any Fuel. Anywhere." option for the automotive, aviation, defense, oil and gas, marine and power generation sectors.

## TSS4U:

Founded in 2003 and headquartered in The Netherlands, TSS has extensive experience designing and delivering reliable and high performance tailor made solar power solutions for about 1,500 sites. Some of the unique applications include extreme heat, explosion proof, wet offshore conditions, off-grid, standalone, hybrid solar power, and for remote locations which makes them the world's most trusted off-grid solar hybrid solution provider.
